

# LEO TILES

Stride with pride

Roaring with pride and paving the path to  
excellence in tile craftsmanship

## Company Philosophy

### Magnificent Tiles

In the realm of tiles, where craftsmanship meets creativity, Leo Tiles stands as a beacon of magnificent innovation. Our philosophy is rooted in the courage to push boundaries, the regal pursuit of excellence, and the fearless embrace of new possibilities.

As we navigate the ever-evolving landscape of the tile industry, we believe in fostering a culture of ferocious adaptability and roaring resilience. Our commitment lies in delivering products and solutions that meet and exceed expectations, empowering our clients to lead confidently.

*Where majesty meets innovation and paves the way to a magnificent future.*

# Who are we

## Roaring with excellence

Established in 1991, Leo Tiles embarked on its majestic journey of crafting mosaic tiles of unmatched quality. Over the years, we've grown steadily, expanding our production capacity to encompass 46 modules.

Crafted with regal precision and magnificent quality, our tiles boast the finest raw materials and high-grade pigments. Renowned for their rich composition and built-in anti-skid properties, they stand as a testament to luxury and excellence.

Our commitment to excellence is matched only by our dedication to understanding your needs and processes, ensuring that our tiles meet and exceed your expectations.

# What we do

## Tiles where majesty meets innovation

Majestic and dominant, Leo Tiles has evolved beyond its hardware origins into a beacon of integrated solutions for enterprises. With a regal commitment to understanding unique needs, we deliver tailored products and services that elevate clients' businesses.

We seamlessly weave solutions from various brands and technologies, crafting a formidable amalgamation resonating with your ethos. Whether vertical or horizontal, our custom solutions permeate every layer, fostering growth.

Quality is not the only factor that proves competency in the market; there are other factors, too, such as time management, commitment, services, and much more. At Leo Tiles, we keep all parameters in mind when it comes to the delivery of work. We analyse our client's requirements; we study the market, and after apposite planning & analysis comes the execution. We have ISO 9001:2008 certified staff; hence, we place our quality benchmark and deliver in accordance.

We are determined to give our clients the best possible services. We have an indigenous pattern developing consultancy to meet the vast choice of customer's customisation requirements. Our Research & Development team is working on developing and extracting the best possible designs and new building construction materials to fulfil the forthcoming days of excellent infrastructure. We are supported by skilled labour to execute the tile layout of 500 sq mtr a day.

*We transform spaces...*

# Products

*A noble commitment to design*

## Designer Floor Tiles

Ranging thickness of 25-30 mm. These tiles, made out of rubber moulds, elevate the visual aspects of a residential building, swimming pool, lawn area, etc.

## Designer Paver Tiles

Ranging thickness of 60-100mm. They are great for adding texture to your space and can be used for any surface, including driveways, patios, and walkways. Paver blocks have been designed to have specific shapes and sizes.

## Economy Paver Tiles

These pavers elevate the visual aspect with a thickness range of 60-100 mm and are used for high loads of main roads, petrol pumps, function halls, parking lots, stadiums, etc. They have the additional strength required for tiles to withstand unexpected loads.

## Shot-blasted Paver Tiles

Ranging thickness of 60-100mm. Shot blasting is the premium process of imparting a slightly roughened texture on the paver surface by directing a high-speed stream of steel particles at it. Our latest innovation is changing the way people pave their driveway.

## C.C. Kerb Stones

Available in different sizes, these stones improve the quality and ambience and are preferred by architects as they utilise minimal space for landscaping. Comes in different sizes and finishes.

## Concrete Bricks

Saucer drains provide a means to collect water overflows or storm water in pedestrian areas, malls, parking lots, etc. They also come with holes to discharge the collected water into another drainage system. Comes in different sizes and finishes.

## Drain Saucers

Bricks made of concrete are used for construction in the infrastructure field. We manufacture steam-cured, high-pressure concrete blocks with unmatched quality specifications. Comes in different sizes.

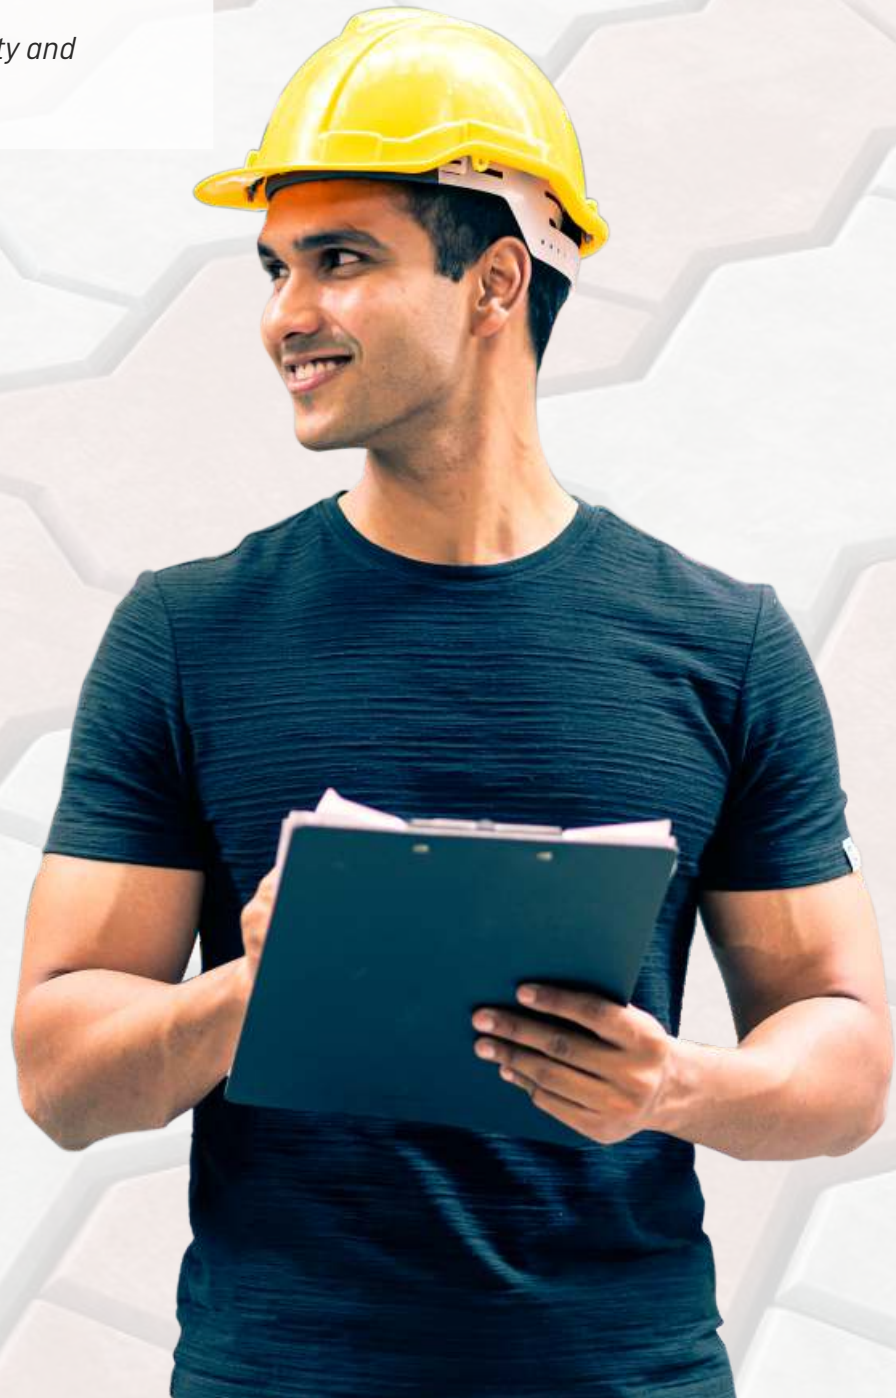

# Why us

## Choose enduring quality

Blending the ferocity of computer-aided design with the regal touch of craftsmanship, Leo Tiles creates floors that stand the test of time, roaring with durability for generations. Leo Tiles has been synonymous with robust quality in cement flooring for over a century. Our unwavering commitment to innovation ensures you select nothing but the finest in the market.

From heritage buildings to prestigious locations nationwide, Leo Tiles adorns floors that exude a majestic charm, remaining dominant despite decades of heavy use.

*We are fearless in our pursuit of quality and durability.*

# Our Achievements

*A powerful legacy that celebrates excellence*

- Leo Tiles is a trusted partner, authorised by industry giants such as IOCL, HPCL, and BPCL, providing unparalleled service to over 6000 petrol pumps across Telangana and Andhra Pradesh.

- From humble beginnings with a single manufacturing unit in IDA Mallapur, Hyderabad, Leo Tiles has surged forward, boasting four cutting-edge facilities spread across Hyderabad, Vizag, and Vijayawada.

- Leo Tiles has expanded its footprint strategically, establishing satellite units in Rajahmundry, Kakinada, and Nellore, specialising in Road Divider manufacturing to cater to the needs of government municipal bodies.

- Renowned as a pioneer, Leo Tiles introduced Kerb stone manufacturing to South India in 2010, setting the industry's benchmark for quality and innovation.

- With a relentless commitment to excellence, Leo Tiles has successfully executed government road works of monumental scale, exceeding 10 lakh sq. ft. on projects like Road No. 36, Road No. 45, Hitch City, and Minister Road, delivering results in record time.

- The brand's impact extends beyond roads, collaborating with Hyderabad Metro Railways to furnish parking and station infrastructure with Leo Tiles' signature quality and durability.

- Leo Tiles has left an indelible mark on the landscape of iconic projects, including the monumental MAYTAS, the sprawling Singapore Township, and the prestigious Raheja Mind Space, showcasing the brand's unwavering dedication to craftsmanship and excellence.

- With a diverse portfolio spanning function halls, showrooms, malls, educational institutions, residential complexes, hospitality establishments, transportation hubs, and infrastructure projects, Leo Tiles has become synonymous with quality and reliability, enriching spaces across every sector with unparalleled craftsmanship and attention to detail.

# Our Infrastructure

## Tiles designed to impress

With advanced machinery and local craftsmanship our infrastructure is equipped to manufacture tiles and paver blocks with impeccable finish and quality. With strategically located manufacturing units and a formidable network, we are poised for ambitious design ventures. Our production capacity cements our status as premier manufacturers, crafting infrastructure solutions that inspire awe and transform spaces into works of art.

# Our Team

## Fearless Team, Fierce Results

Our team embodies the spirit of Majestic, Brave, and Magnificent, we're here to provide flooring solutions that are Regal and Unmatchable in their durability and beauty. Choose Leo Tiles for flooring that's not just reliable but roaring with quality and sophistication.

*Empowering design and crafting success*

# Testimonials

★★★★★

Leo Tiles has become synonymous with quality and innovation in the tile industry. Their commitment to excellence and fearless pursuit of new possibilities have produced products that exude majesty and elegance. Also, their service is excellent; they ensured that from buying to delivery -- everything was done smoothly without any hassles.

**- N.M. Gajendra GM, Prestige Constructions**

★★★★★

Leo Tiles has set a benchmark for craftsmanship and creativity in the tile industry. Their products not only enhance the aesthetics of my space but also reflect a commitment to perfection. Thanks to Leo Tiles, I am paving the path to excellence in every corner of my home.

**- Prakash patel Director, Om Sree Builders**

★★★★★

Leo Tiles' pursuit of excellence is evident in every tile they produce. Their ability to blend tradition with innovation has elevated the standards of the tile industry. For commercial spaces in particular, you want a blend of affordable prices and durable design.

Having been their loyal customer for many years, I can safely say that you are investing in quality and sophistication. Roaring with pride, indeed.

**- A.Pradeep GM Engineering, IOCL, Hyderabad**

★★★★★

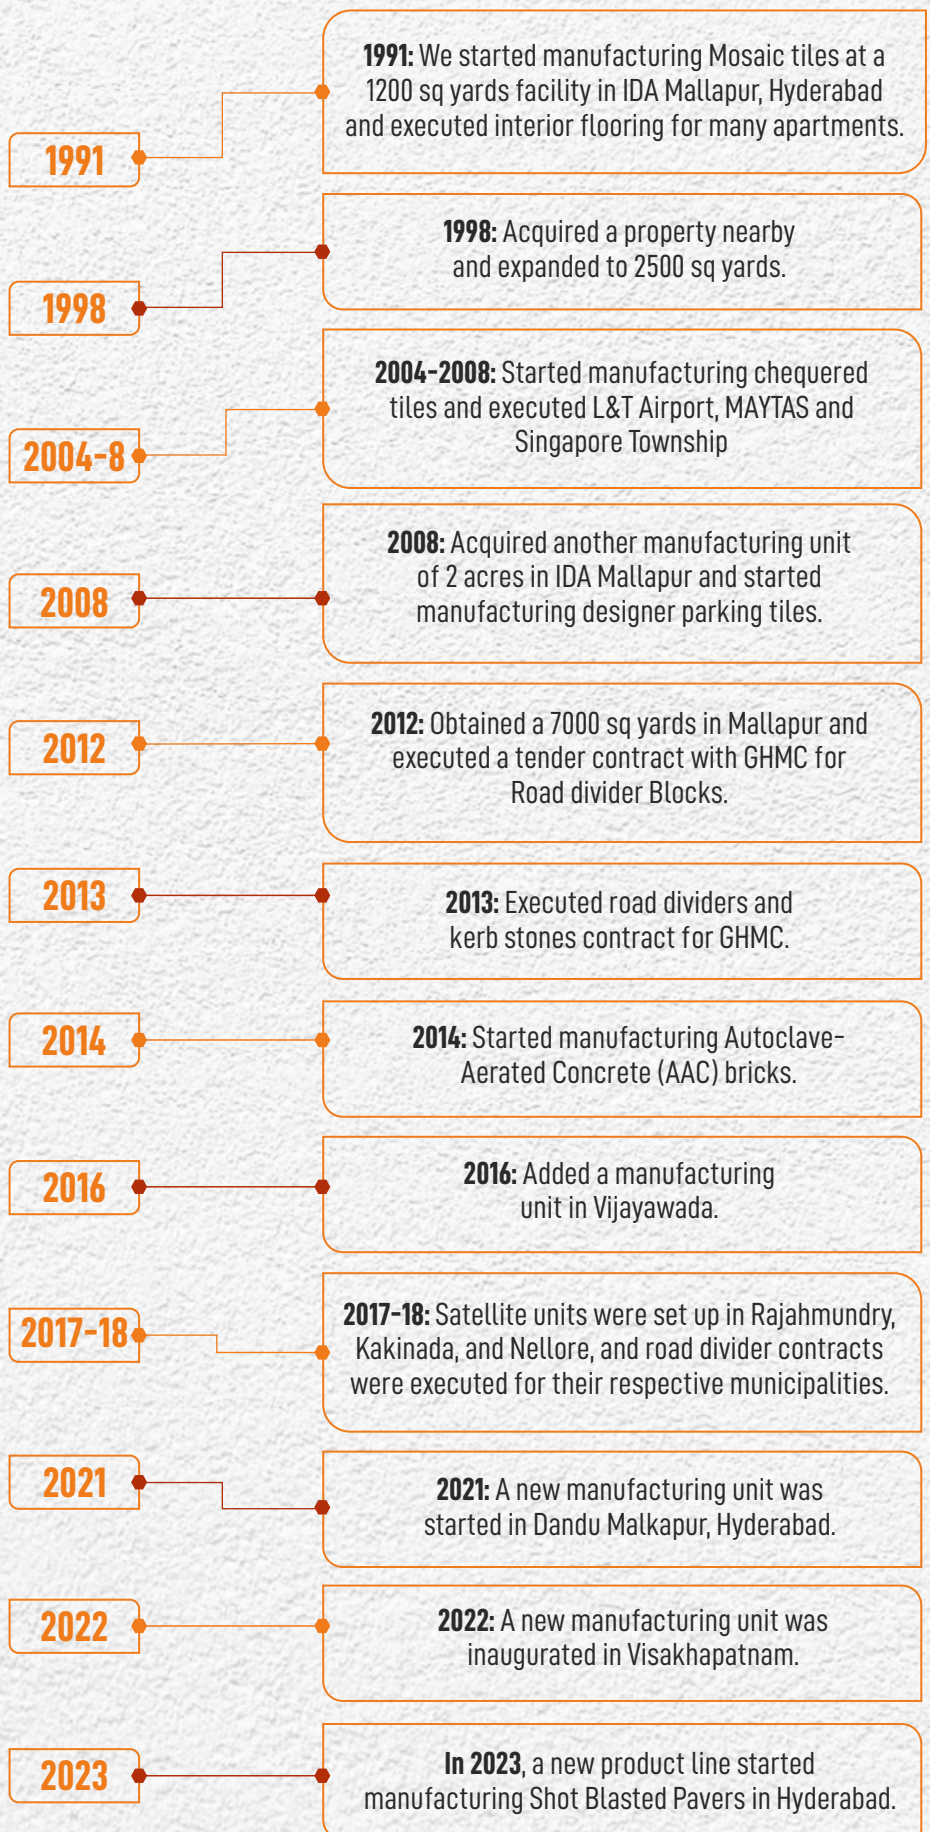

The dedication of Leo Tiles in pushing boundaries of craftsmanship and creativity has transformed my living space into a work of art. Anyone who visits our projects asks me where the tiles were purchased. With their products, I am not just paving floors but laying a path to excellence.

**- J. Ramu Director, My Home Group**
